NETSTAR FLEET CAMERA SOLUTIONS

***REDUCE RISK
AND ENABLE
BETTER DRIVERS***

YOUR **CHALLENGE**

ENSURE DRIVER SAFETY AND REDUCE FLEET COSTS

Two of the biggest challenges fleet managers face are:

1. Driver safety:

Road safety remains a key concern and risk. The need exists to promote better driving with real-time monitoring, alarm notifications and the ability to review footage for training and incident recreation.

2. Managing fleet costs:

Fleet operators understand the significant cost of poor driver behaviour, accidents and associated expenses. The need exists to prevent fraud and enhance operational efficiency to reduce fuel and maintenance costs.

A black and white photograph showing two truck drivers in safety gear standing next to a truck. One driver is pointing towards the truck's side mirror or camera area. In the background, another truck is parked on a lot under a cloudy sky.

"The use of fleet camera solutions has shown significant improvement in driver behaviour, leading to fewer instances of harsh braking, speeding, and other risky manoeuvres. This ultimately reduces accident rates and lower insurance premiums for fleet operators."

MONITOR YOUR FLEET AND DRIVER PERFORMANCE

Netstar has a camera solution for every fleet.

Netstar's comprehensive range of Fleet Camera Solutions gives you the insights to mitigate risk and operate a safe, secure and productive fleet. Add Netstar's Fleet Cameras to any existing or new fleet management solution or as a standalone service.

WHAT WE OFFER

NETSTAR STANDARD CAMERA SOLUTIONS

For fleets with **BASIC** needs, Netstar provides camera solutions offering increased visibility of your fleet through video, audio and advanced telematics.

Netstar provides the following standard camera solutions:

- 2-Camera Solution
- 4-Camera Solution
- Multi-Camera Solutions

NETSTAR AI CAMERA SOLUTIONS

For fleets with more **ADVANCED** needs, where you want to use the power of Artificial Intelligence (AI) to monitor your drivers and fleet proactively.

Netstar provides the following AI camera solutions:

- AI 3-Camera Solution
- AI Multi-Camera Solutions

See the Netstar AI Camera brochure for all the AI Camera features we offer.

WHAT YOU GET

- 2-Camera Dashcam (road and driver facing)
- Live GPS tracking and streaming
- On-demand video download
- Snapshots (timed and on-demand)
- Two-way VoIP communication and broadcast text-to-speech messaging (English Only)
- Driver behaviour alarms with audible in-cab alerts
- Onboard call-for-assistance button
- Desktop, web and mobile applications
- Up to 2 x 256GB micro-SD card (Standard 2 x 64GB)
- Data bundle from 500MB

THE NETSTAR 2-CAMERA SOLUTION

Your basics covered

Upgrade your fleet's safety and efficiency with our 2-Camera Solution - the essential entry-level solution for fleets of any size. Its compact design and easy installation capture high-quality video footage of the road ahead and inside the cab without obstructing the driver's view.

By analysing this footage and GPS data, our Dashcam enables you to identify and address unsafe driving practices, enhancing overall safety and fleet performance. It identifies and alerts drivers to unsafe driving practices such as over-speeding, harsh braking, acceleration, and cornering, enabling you to address and enhance overall safety.

Gain peace of mind with continuous video recording, from accident investigations to employee and asset protection; the recorded footage offers crucial support and peace of mind.

WHAT YOU GET

- Road and driver facing cameras
- 2 x External IP69K Infrared Cameras
- Live GPS tracking and streaming
- On-demand video download
- Snapshots (timed and on-demand)
- Desktop and mobile applications
- Tamper-resistant DVR
- 1 x 500GB SSD
- 1 x 32GB Backup SD Card
- Data bundle from 1GB

THE NETSTAR 4-CAMERA SOLUTION

More than the basics

Enhance your fleet's safety and efficiency with our 4-Camera Solution enabling rear or side-view monitoring to protect your business from realities like fuel and stock theft.

The 4-Camera Solution records video and allows live streaming, timed snapshots, and trip replays. The 4-Camera Solution provides more visibility of your vehicle.

Rest easy with our 4-Camera Solution. From accident investigations to protecting your valuable assets and employees, the recorded footage offers crucial support and peace of mind.

WHAT YOU GET

ALL

**NETSTAR 4-CAMERA
SOLUTION FEATURES***

- Select up to 4 Additional Cameras
- Add on optional extras such as:
 - Fleet Intelligence Services
 - Digital Video Inspection for Driver Behaviour Monitoring and Infringement Detection
 - Digital Snapshot Inspection
- A Range of In-cab Displays
- Switches and Other Accessories
- A Range of SSD Storage Devices
- Data bundle from 1GB

THE NETSTAR MULTI-CAMERA SOLUTION

Covering all angles

Improve visibility with a customised multi-camera solution. Our Multi-Camera solutions provide up to 8 cameras to provide a comprehensive offering.

The Multi-Camera solution provides all the benefits of the 4-Camera Solution while reducing your risk by enabling increased visibility of the vehicle, driver, in-cab and surroundings. This extra visibility combats fuel theft and fraudulent claims and reduces stock and vehicle damages.

Select from a range of Covert, Internal, External and Reverse Cameras to meet your needs. We will work with you to develop a fit-for-purpose camera solution.

THE RESULT

WHAT NETSTAR'S CAMERA SOLUTIONS DO FOR YOUR BUSINESS

Safer drivers, passengers and other road users

Reduced vehicle downtime

Reduced accident-related repairs and maintenance costs

Saving on insurance premiums and fuel

“

There are over 1 300 000 road deaths each year throughout the world. Installing a video event recorder can cut a driver's collision rate by 50%.

”

Ageas Business Report

FLEET MANAGER OUTCOMES

- | Reduced fleet costs
- | Reduced vehicle/stock loss
- | Increased efficiencies

DRIVER OUTCOMES

- | Quicker claims clearing
- | Reduced risk of life loss
- | Better driver behaviour
